queen creek transmission lines

I would like to extend my support for RRATL and ask that SRP use the Germann to Meridian route for the transmission lines infrastructure. I would further like to extend my concern and suggestion to ask that these transmission lines stay as far away from homes and families as possible. With this request, I would ask that consideration be made to place the lines further north than the railroad tracks along the old rittenhouse road, I am a resident of Cortina and have kids (my house is close to Power and Germann) and am asking that these lines be kept more north, closer to the airport where homes and families are not subjected to the transmission lines.

Thank you for your consideration! Rachel Schweinberg
